puzzle 3

Which number completes the pattern ?

puzzle 4

Which number completes this number sequence ?

www.mathinenglish.com

## Answer to brain teasers

**puzzle 1 :** C

In each row, count the number of positive cells and subtract the negative cells. The 3rd cell gives the difference.

**puzzle 2 :** 9

For each column, the top digit is equal to the sum of the other 3.

**puzzle 3 :** 5

Basic addition:  $234 + 456$  equals 690

**puzzle 4 :** 2

The difference between the vertical and horizontal 2 digit number is 25 in each diamond .
